Treysen Zobell
Programmer

About Me

I am a self-motivated, driven student seeking an internship in the field of technology. I am highly computer literate with strengths in problem-solving and working to create solutions in the field of computers and related equipment. I am eager to expand my knowledge and contribute to a team of professionals.

Career Experience

2011 – 2016   **General Employee**
Northeastern Utah Office Supply
 - Stocking Shelves
 - Assembling Furniture
 - Assisting Customers

2016 – 2021   **Assistant Manager**
Northeastern Utah Office Supply
 - Constructing Furniture
 - Customer Service
 - Inventory Control
 - Furniture Deliveries
 - Locksmithing
 - Electrical Repair

Job Experience

Digital Signage
Uintah Basin Medical Center
    I designed a signage solution for Uintah Basin Medical Center, utilizing Raspberry Pi 3b's running a variant of Linux. This offered a low cost solution that is easily scalable.

Appreciation Plaques
Union High School
    I utilized the school's laser cutter to cut and engrave many acrylic plaques to be given to supporters. The logo desired wasn't easily compatible with the engraving process, so I had to alter it in Adobe Photoshop first to make it usable

Education

2016 – 2021   **High School Diploma**
Union High School, Roosevelt, Utah
